To: [REDACTED]

I hope you have received my recent letter outlining some of the needs for my collection. If not I will send it by Email. I want to add to my needs at this time to try to help you.

Lists of Issuers, valuation, or counterfeit bank notes of American banks before 1865. These were in pamphlets, magazines, books & newspapers.

Pamphlets containing signatures of officers of American banks prior to 11865

American Almanacs (Almanaks) before 1800 which contain money exchange rations, counterfeit listings or money conversion tables. ,

An earlier English edition of Guthrie than the sixth edition which is one I bought from you, As stated in my letter it is the most important even if it has some non - numismatic defects.

I know none of this is easy.
